CHULETA RINGS WALL ART

Chamcha Wood, Square, LG

The perfect example of how we use even the smallest pieces of natural wood we source, the Chuleta Rings Large Square Wall Art is a sculptural piece created from freeform end-cuts of chamcha wood that are hollowed out and connected to form large-scale organic wall panels. Though many product designers would see these as useless castaways, we see them as building blocks that create dynamic elements for interiors. We also offer the Chuleta Rings in smaller square and rectangular versions. Each of these personifies the modern organic ethos for which Phillips Collection is renowned.
