

WEDGE END TABLE

Von Braun Finish

The Wedge End Table is formed from resin and coated in our special von braun finish, which combines copper leafing with a light coating of acid to create a lovely red-brown patina effect. Although each end table shares similarities in shape, the patina pattern on every table is unique and one-of-a-kind. This gives your Wedge End Table its own distinct character that will truly allow it to stand out in your interior space. We also offer these lovely tables in our lichen and posh finishes as well, all of which provide the same patina effect with variations in color.
