

## FRAMED SLICE WALL TILE, TEAK WOOD, BLACK FRAME

The perfect example of how we use even the smallest pieces of natural wood we source, the Black Framed Slice Wall Tile is embedded with a slice of teak that many product designers would see as a useless castaway. The tonal depth of the black metal frame draws out the warmest tones in the wood, and the textural grain of the wood contrasts the clean profile of the frame. We offer a number of frame colors in this family of products, each of which personifies the modern organic ethos for which Phillips Collection is renowned.
