

BLUE GLASS BOWL

MD

Proving the talent of the Phillips Collection glass artisans, this Medium Patterned Blue Glass Bowl has been folded into a luminous blue decorative accent, a feat that requires great skill when working with molten glass. The bending and shaping into a symmetrical creation must be completed before it cools into its forever shape. Though we see this dramatic decorative bowl glinting in a contemporary interior with swaths of floor-to-ceiling windows overlooking the ocean in a similar hue, it would also look beautiful in traditional and transitional interiors as a statement piece on a dining or entry-way table. We offer the decorative glass bowl in three sizes with and without patterns on the exterior of its surface.
