

## ROCK POND MIRROR

### Gold Leaf

For the lover of asymmetrical design elements that bring tension into a space, the Rock Pond Wide Gold Mirror is a shoe-in. It's as if molten metal has been poured around the mirror to create the frame, frozen in a ruddy configuration as it cooled, but the decorative mirror is made of composite that has been covered in a gold leaf finish. We also offer a narrower version of this mirror, the slightly different profiles making them perfect for pairing or for hanging in a gallery wall installation. The Rock Pond mirrors are also available in a silver leaf finish, each of which reflects the ethos that Phillips Collection personifies: modern organic.
