

## CAST PETRIFIED COFFEE TABLE

Round

The Cast Naturals Collection highlights our skills at taking an innovative material and making it feel as if it sprang from Nature. The top of the Cast Petrified Round Coffee Table is made of composite that has been molded to look like a piece of aged wood that it took nature ions to create. It takes great skill for our artisans to paint the material to make it so convincingly resemble woodgrain. The advantage of having a wood coffee table made from this durable material is that it will long outlast its natural counterparts pulled from the forest floor. This piece is the perfect representation of the Phillips Collection ethos: modern organic. We have a number of offerings that exhibit the feel of petrified wood.
