

SKIPPING STONE SIDE TABLE

Gray Stone, Forged Legs

The Skipping Stone Large Gray Side Table is a traditional design that inspires nostalgia for the great era we now call Americana with a twist. It is made of wood in a gray stone finish. Round tables have rested next to sofas and chairs in American living rooms and dens since our country's great woodworkers began plying their trade. We simply chose a reclaimed piece of wood in an organic shape to increase the table's appeal. A design detail of note is the thinness of the forged metal legs, which contemporizes the design a bit.
