Agate is primarily formed within volcanic rock that has reached incredibly high temperatures. This fascinating material has been used in necklaces and other assorted forms of jewelry for thousands of years, dating back far before the Ancient Greeks. Phillips Collection's tabletop Agate Accessories present modest cuts of this classic mineral and allow the natural colors and band formations to take center stage. Each of these one-of-a-kind tabletop accessories will act as a beautiful accent piece that adds a dash of spice to any surface in your interior space, pulling a room together into a cohesive design statement.
