

SLICE WALL TILE

The perfect example of how we use even the smallest pieces of natural wood we source, the Silver Framed Slice Wall Tile is embedded with a slice of chamcha wood that many product designers would see as a useless castaway. The warmth of the wood and the crispness of the silver metal frame are juxtapositions, as are the textural grain of the wood and the clean profile of the frame. We offer a number of frame colors in this family of products, each of which personifies the modern organic ethos for which Phillips Collection is renowned.
