

HAYDEN END TABLE

Gray Stone Finish, Square, Black Nickel Base

Taking a slab of chamcha wood and creating a table that looks modern is not an easy feat but we've done just that with our Hayden Gray Square End Table, which has a gray wood top nestled into a black nickel frame. By sanding the wood to a pared-down perfection and placing it nimbly on the clean-lined metal cube, we've created tables in the Hayden line that will be equally at home in a modern setting as they will a mid-century modern or an industrial chic room. We offer the Hayden as coffee, console, and end tables in natural and gray finishes on the wood and several metal finishes. Each of these reflects the ethos that Phillips Collection personifies: modern organic.
