

BUTTON WALL TILE

Shallow, Lichen Finish, LG

The Shallow Button Wall Tile is a stunning piece of wall decor formed from resin and coated in our special hand-applied lichen finish. The tile is first covered in copper leafing, then a light coating of acid is applied to the piece which causes a green patina to form. The clean, round shape of the piece contrasts beautifully with the erratic and unpredictable nature of the finish. The result is an innovative accent piece that is minimalistic, yet it possesses a larger than life personality. Button Wall Tiles are also offered in von braun and posh finishes, varying sizes, and deep or shallow variants.

Size	17x4x17"h (20x5x20"h packed)
