

## PEBBLE MIRROR

### Rectangle

If we described the Pebble family of products as stacked stones, we'd give the wrong impression, as these furnishings are not made of rocks; they are created from long lengths of playful shapes that are reminiscent of river rocks in contour only. These are created when organically shaped pieces of mirror are encased in metal in a brushed brass finish, as is the case with the Pebble Rectangular Mirror. The collection also includes an end table, table lamps and floor lamps, each of which reflects the ethos that Phillips Collection personifies: modern organic.
