Timbul Raharjo is an award-winning artist and sculptor from the village of Kasongan in Yogyakarta, Indonesia. He is best-known for his large-scale masterpieces like these pipe sculptures. The sculptures are made from highly polished stainless steel pipe that is individually placed and welded together to create astonishing, complex forms like mustangs and bulls.

Timbul works with all kinds of metals, including aluminum castings of dresses, humans, and animals. Each piece is hand-sculpted and after a thorough polish, the sculptures come to life.
