

## TEAK WOOD BALL, SMALL

The Small Teak Wood Ball is a natural wonder. We've taken gigantic pieces of root and honed them into a decorative sculpture that maintains its natural character due to the fissures that were eaten into its surface. As we shaped the wood into a ball, we brought a beautiful sheen to it, refining character that only Nature can achieve. Given the shape is decidedly contemporary, this wood ball reflects the modern organic ethos Phillips Collection embraces. We offer this design in medium and large sizes, as well.
