

WOOD DUCK

Set of 2

Tapping into our playful side, we bring you the Wood Duck Set that includes two adorable water fowl sculptures that are alert and pert. Carved from Chamcha wood, the intermingling of woodgrains make these lively ducks instant textural introductions to a space. They are small enough to fit on a library shelf but why tuck them away? Place them on a stack of coffee table books for a fun display. The natural wood and the minimal profiles make this pair perfect for the Phillips Collection modern organic ethos.
