

LONGAN WOOD STOOL

Assorted Size and Shapes

Longan, which is Cantonese for "dragon eye", gets its namesake from the delicious and desirable fruit that grows from the branches of Longan trees. However, the versatility and beauty of the wood from these trees can not be underestimated. The Longan Wood Stool from Phillips Collection is living proof of such a statement, with unrepeatable shapes and grain patterns on full display with varied colorations. These stools are sustainably sourced and maintain their wholly organic form, making each Longan stool unique with their own sense of character.
