

BLEACHED TEAK STOOL

Round

The Round Bleached Teak Stool is somewhat of a physical oxymoron. The erratic, organic curvature of the stool is completely contrasted by the neutral coloration of the bleached finish. However, the end product proves that opposites do indeed attract, as this Round Teak Stool effortlessly fits many different types of interior decor arrangements. The wild nature of the form factor gives the table a large splash of personality, while the muted tone of the finish brings this piece back down to earth, allowing it to effortlessly blend in with other pieces adorning your home.
