

## DRIFTWOOD TOP COFFEE TABLE

Black Wash

Lake houses and seaside cottages have long been the perfect interiors for driftwood. With our Black Wash Driftwood Coffee Table, we've made a piece that will feel just as comfortable in an industrial chic loft or a modern farmhouse setting. It is the perfect example of how we at Phillips Collection rescue remnants of wood from being Nature's finest castaways by making them into elemental design statements. A design detail of note is how the table top retains the fissures eaten into it by being exposed to the elements, though this doesn't mean it isn't perfectly even for displaying decorative objects because we've honed the surface to be flat.
