TEAK ROOT COFFEE TABLE

Teak root is known for its erratic, unconventional growth pattern and heavy durability. We wanted to take the best aspects of these organic works of art with the Natural Teak Root Coffee Table. Once we sustainably source these unearthed roots, we allow the lovely teak wood to do the rest of the talking. The distinct coloration and rich grain effortlessly pair with the unorthodox root pattern to create a truly one-of-a-kind look and feel for each piece. The Teak Root Coffee Table is also offered in a bleached finish, with both versions effortlessly slipping into the Phillips Collection ethos: modern organic.
