

TEAK ROOT COFFEE TABLE

Bleached, Square

Teak root is known for its erratic, unconventional growth pattern and heavy durability. We wanted to take the best aspects of these organic works of art with the Bleached Teak Root Coffee Table. We sustainably source these unearthed roots and give them a light bleach treatment. This gives the table an appealing cream color that effortlessly pairs with the unorthodox root pattern to create a truly one-of-a-kind look and feel for each piece. The Teak Root Coffee Table is also offered in a natural finish, with both versions effortlessly slipping into the Phillips Collection ethos: modern organic.
