

FLOATING PETRIFIED SLICE WALL ART

Assorted

The Floating Petrified Single-Slice Wall Art is made of a clear piece of acrylic behind which we've fastened a slice of petrified wood that was cut and polished by hand in Indonesia. The clarity of the acrylic creates the illusion that the pieces of wood are floating, and the transparency is enhanced by the clean silver brads that attach it to the wall. The contemporary feel of the overall piece and the powerful natural graining of the wood make this wall art perfect for the Phillips Collection ethos of modern organic. We offer this design with triple and double slices.
