

JP WALL PLANTER, CENTER SLANT

Finding contemporary garden planters with handsome profiles that mount on a wall isn't a simple exercise. That's why we created the JP family of planters in a number of sizes and finishes. The fact that they are made of composite makes them easier to mount than their concrete counterparts. The JP Center Slant Wall Planter has a pale Roman stone finish. We also offer the JP planters as standing planters in bronze, ivory and silver; and the wall planters in left- and right-slant configurations. Each of these reflects the ethos that Phillips Collection personifies: modern organic.
