

RIVER STONE SIDE TABLE

Roman Stone

The River Stone Roman Stone Side Table is an accent table shaped like a rock that has an organic feel to it that brings a hint of softness to a space. The pebble-shaped side table will be a terrific addition to a loggia, a screened porch, or a lake house great room. It's made of composite so it's much easier to move around than real stone. If a darker finish fits your design scheme better, take a look at the tables we have in this family of products with a dark granite finish. Each of the River Stone pieces illustrate our deep appreciation for melding nature and design.
