

SONIC ROUND VASE

Wide

Emanating warp-speed style, the Sonic Wide Round Vase looks as if it has been carved from sandstone, and we intended this ruse. Truth is, it is fashioned from composite in a stone cast finish so it's much lighter to move around and won't break like real stone will. The telescoping indentions in the surface of this ivory vase create both depth and texture. We also offer this design as a tall round vase and a short round vase, each of which reflects the ethos that Phillips Collection personifies: modern organic.
