

LOG STOOL

Bronze, LG

Imitating Nature is one thing, but bringing the elemental symbols we see in the woods a hint of bling is a passion for us at Phillips Collection. Case in point is our Log Large Bronze Stool, which is made of composite in a handsome bronze finish. Cast from a real log, this tree-trunk stool in our Cast Naturals Collection personifies our ethos of modern organic. By treating the surface of this log stool to such a warm finish, we've created a chic piece for contemporary interiors. Just imagine how perfectly it will fit into the décor of a modern apartment or a sleek coastal condo! We have a number of tables and decorative pieces in varied finishes in this family of products.
