

FLOOR BALL

Small, Polished Aluminum Finish

When a simple, clean sphere is the perfect addition to a space, the Small Polished Aluminum Floor Ball is a fantastic choice. Though it looks as if it is made from heavy metal, it is fashioned from composite and finished in polished aluminum that has a protective coating to ward off smudges and finger prints. This silver sculpture has a flat bottom so you won't have to worry about it staying put. All of the attributes of this decorative accessory reflect the Phillips Collection ethos, which we call modern organic. We offer several finishes and sizes of this design.
