

CLASSIC PLANTER

Polished Aluminum, LG

The metallic finish on the Classic Large Polished Aluminum Planter convinces the eye that this tall planter with contemporary lines is made of metal but it's fashioned from composite, which our talented finish artisans have given a brilliant sheen. This means it will far outlast any silver planter made from a material that could rust. The combination of sheen and a clean profile makes this piece a shoe-in for the Phillips Collection ethos, which we call modern organic. We offer several finishes and sizes of this design.
