

OLD LUMBER SIDE TABLE

Roman Stone

The Cast Naturals Collection highlights our skills at taking an innovative material and making it feel as if it sprang from Nature. The Old Lumber Roman Stone Side Table is made of composite that has a surface treatment to make it look like an old piece of lumber, then finished in Roman stone. The advantage of having a side table made from this durable material is that it will long outlast its natural counterparts culled from cut specimens. This ivory console table is the perfect representation of the Phillips Collection ethos: modern organic.
