

## SEAHORSE ON STAND

### Silver Leaf

The Victorians were fascinated with botanical clippings, exotic flowers, and oceanic specimens collected on trips. Bringing the penchant for the seaside into contemporary times, the Seahorse Silver Sculpture holds a pair of luminous creatures that are buoyed on a minimal black stand. Made of composite in a silver leaf finish, the large and small silver seahorses have realistic profiles that imitate their natural counterparts perfectly. This sculpture personifies the Phillips Collection ethos of modern organic.
