

## RADICA VASE

Tall

We gave our artisans who create our composite products free reign to take a playful turn with the Radica Tall Vase and they delivered. By creating knife-strokes with the malleable material, the surface introduces a large dose of texture for a monochromatic design. The combination of texture and clean lines makes the tall white vase that perches atop a contemporary stainless steel base and legs perfect for the Phillips Collection ethos, which we call modern organic. We offer the Radica in a wide version, as well.
