

MARLEY BAR STOOL

Resin, Faux Bois Finish

Made of composite to look like mango wood, the Marley Large Faux Bois Bar Stool has an hourglass profile that keeps its lines clean and simple. Also contemporary on this design is the minimalist feel of the metal foot rest. Mango wood is a hardwood that has been harvested for making furniture for many years and our artisans have imitated this heartwood so beautifully. The natural feel of the surface of this version of the bar stool is the surprise of this piece, which is one of our offerings that reflects the ethos that Phillips Collection personifies: modern organic. We have a number of Marley stools and tables in a variety of finishes.
