**River Stone Coffee Table, Small,
Liquid Silver, 42x26x14"h**

phillips
collection
every piece a conversation

There is something mesmerizing about the power of water and how it softens rock into a water-worn stone. Designer, Jason Phillips, found inspiration in nature's ability to shape a hard surface into something beautiful. With no harsh lines or hard edges, there is no need to worry about bruised shins and bumped heads with the delicate outline of this stunningly simple piece.

The top surface is flat and functional.
Available in two sizes and various finishes.
The River Stone Coffee Table continues to be a best seller.

Our liquid metal finish is achieved using a special, proprietary metal powder developed in Italy which achieved a polish and richness that is absolutely stunning. Please note that due to the high level of polish, the table reflects the colors of the room in which it resides, so the tone will vary from lighter to darker accordingly.

Dimensions: 42x26x14"h (48x30x18"h packed)

Weight: 30 LBS (42 LBS packed)
