

RIVER STONE COFFEE TABLE, LIQUID SILVER, LARGE

There is something mesmerizing about the power of water and how it softens rock into a water-worn stone. Designer Jason Phillips found inspiration in Nature's ability to shape a hard surface into something beautiful when he envisioned the River Stone collection, which includes the River Stone Large Liquid Silver Coffee Table. With no harsh lines or hard edges, there is no need to worry about bruised shins and bumped heads given the delicate outline of these stunningly simple pieces. Made of composite in a brilliant liquid silver finish, this rock-shaped coffee table with its flat top, which is highly functional, is one of many products we offer in this collection, each of which reflects the ethos that Phillips Collection personifies: modern organic. Our liquid metal finish is achieved using a special, proprietary metal powder developed in Italy which achieves a polish and richness that is absolutely stunning. Please note that due to the high level of polish, the table reflects the colors of the room in which it resides, so the tone will vary from lighter to darker accordingly.

Size	54x34x16"h (60x40x45"h packed)
Weight	54 LBS (120 LBS packed)
Material	Resin Composite
Finish	Liquid Silver
Color	Silver
SKU	PH67800
