

GRISWOLD PLANTER GRAY

SM

The rippling pattern carved into the surface of the Griswold Small Gray Planter convinces the eye that this tall planter with contemporary lines is made of clay but it's fashioned from composite, which our talented finish artisans have given an earthy feel. This means it will far outlast any garden planter made from a natural material. The combination of texture and a clean profile makes this piece a shoe-in for the Phillips Collection ethos, which we call modern organic. We offer several sizes of this design.
