

TURBO VASE

Aluminum and Black

Formed from resin and finished in ducco black and polished aluminum, the Turbo Vase features an alluring combination of silver and black lines that wrap themselves around the body of the piece. The silver swirls are elevated just above the black, creating ridges around the piece that give the vase a hypnotic sense of texture. The design is an elegant take on a simple concept, and through that simplicity is where the highlights of the piece truly shine. The blend of the minimalistic colors and subtle curvature of the design lends itself to making the Turbo Vase a beautiful addition to any room within your space.
