

BREATHE PLANTER

Aluminum

The Aluminum Breathe Planter is a unique offering amongst Phillips Collection planters. Made from composite and finished in a white gel coat, this planter features a number of openings surrounding the surface that allows you to peek inside through the midsection, exhibiting an earthy, organic effect when containing flora. This planter also comes in a gel coat white finished variant, and each version is suitable for use both indoors and outdoors. The Breathe Planter is perfectly symbolic of the Phillips Collection ethos: modern organic.
