

ALON PLANTER

Polished Aluminum

The metallic finish on the Alon Round Silver Planter convinces the eye that this decorative planter is made of metal but it's fashioned from composite, which our talented finish artisans have given a brilliant sheen. This means it will far outlast any silver planter made from a material that could rust. The combination of its gleaming surface and textural pattern makes this piece a shoe-in for the Phillips Collection ethos, which we call modern organic. We offer several finishes and shapes of this design.
