

## SLATE PEDESTAL

Medium, Liquid Silver

Subtle texture enhances the simple rectangular shape of this pedestal. The metallic finish gives it the necessary punch of glamour to stand alone or serve as a pedestal to showcase another accessory. Available in two finishes and several heights. Our liquid metal finish is achieved using a special, proprietary metal powder developed in Italy which achieved a polish and richness that is absolutely stunning. Please note that due to the high level of polish, the table reflects the colors of the room in which it resides, so the tone will vary from lighter to darker accordingly.
