

## SLATE PEDESTAL

Large, Liquid Silver

Resembling a block of metal that was frozen as its textural surface solidified, the Slate Large Silver Pedestal has a surprise in store: it's made of composite that our finish artisans have slathered with a luminous liquid silver finish. Several benefits of this material include how extremely durable it is and how much more lightweight it is than a chunk of steel. These attributes reflect the Phillips Collection ethos, which we call modern organic. We offer this design in several sizes and finishes.
