

MOLTEN WALL DISC

Small, Gold Leaf

Proving our design prowess in making other materials look like metal is the Molten Small Gold Wall Disc. It is made of composite to look as if hot metal was frozen as it was poured into its shape and covered in a bright gold leaf finish. The decorative wall disc is a design chameleon, as it would bring luminosity to any number of design styles, including contemporary, transitional, and traditional. Hang the small wall disc in a gallery wall installation with the medium and large decorative wall discs, for more impact. We also offer the Molten wall discs in a silver leaf finish. Each of these reflects the ethos that Phillips Collection personifies: modern organic.
