

CAST TEAK ROOT SCULPTURE ON BASE

Silver

The Cast Naturals Collection highlights our skills at taking an innovative material and imitating Nature. The Cast Teak Root Silver Sculpture is made of composite, which has been molded to look like a slice of petrified roots it took nature eons to create, and then covered in a luminous gold leaf finish. The advantage of having a decorative accessory made from this durable material is that it will long outlast its natural counterparts pulled from the forest floor. This piece is the perfect representation of the Phillips Collection ethos: modern organic. We've created it to look stunning from all angles so place the tall sculpture front and center!
