

## CONVERGENCE MIRROR

Resin, Gold Leaf

Where pizzazz meets style is where our Convergence Gold Mirror lives. Made of composite in a gold leaf finish, the decorative mirror has a striated surface that will leave you wondering if its woven of wire. The texture that results when the finish is applied is achieved when our talented artisans rub the surface with gold—it doesn't seep fully into the deepest crevices so a light/dark shadow play brings the gold mirror extra life. A design move of note is how the piece of mirror is placed asymmetrically, which creates added tension—a favorite slight-of-hand that interior designers employ to add interest to a room. We also offer the Convergence in a silver leaf finish. Both of these reflect the ethos that the Phillips Collection personifies: modern organic.
