

## FUNGIA SCULPTURE ON SLATE PEDESTAL

### Silver Leaf

Make a statement with the powerful Colossal Fungia Silver Sculpture that is perched on a slate pedestal. Made of composite in a silver leaf finish, the creation fools the eye into thinking it has been forged from metal to take on the characteristics of a piece of coral. The texture it exudes is powerful, as the carved striations bring it peaks and valleys that deepen when the finish takes to the valleys with a greater intensity and is rubbed from the peaks leave them with a greater sheen. Imitating a natural element in such a high-tech material perfectly reflects the Phillips Collection ethos of modern organic.
