

SLANT BENCH

Golden Acacia, Iron Base

The dynamic profile of the Slant Wood Bench makes it both a utilitarian object and a statement piece. This is one of the pieces we have created that rescues the reclaimed chamcha wood seat from being one of Nature's finest castaways. The angular black metal base in an opposing slant creates an interesting tension. A versatile piece, the overall style is fitting for a number of interiors, including contemporary, modern farmhouse, and industrial chic. Because this piece is crafted from natural solid wood, color and woodgrain character may vary, adding a unique personality to each piece.
