

GROOVE SIDE TABLE

Round

At Phillips Collection, we are highly selective in the wood we source. Chamcha is a fast-growing species of the Acacia family and is native to Thailand. We are drawn to the beautiful wood grains and blonde sap lines that create this two-toned natural finish. No need to change what Nature has already perfected! This side table is hollowed out to reduce weight, and we've carved three simple grooves to add detail work that doesn't take away from the natural beauty of the wood itself.
