

SMOOTHED STOOL

Chamcha Wood, Natural

The Smoothed Chamcha Wood Stool is a traditional design that inspires nostalgia for the great era we now call Americana. Made of wood that has been left to exude its natural beauty, stools of this shape have been slid under desks in American kitchens or placed on the tile floors in children's bathrooms since our country's great woodworkers began plying their trade. A design detail of note is the thickness of the legs, which makes this small wood stool extra sturdy.
