

## PANGEA COFFEE TABLE

Pangea, the mighty supercontinent, used to be the only landmass on planet Earth. Over time, however, Pangea became subject to many shifts and changes over hundreds of millions of years to eventually form the continents we all know and love today. We believe the natural ebb and flow of these great The Natural Pangea Coffee Table is a physical reminder of this shape-shifting legend. Each table has a unique shape, coloration, and a natural sap line around the edges. All of this comes together to create a truly one-of-a-kind table each and every time. The Pangea Coffee Table is also available in a gray stone finish, both of which represent the Phillips Collection ethos: modern organic.
