

## ARC CONSOLE TABLE

Our design team has a talent for mixing the raw feel of wood and the sleek feel of metal, which is clear from the design of the Arc Single-Sided Console Table. The plank of golden Acacia wood with its natural graining feels contemporary given the wood panel's clean edges and the minimalist design of the base and arcing legs. The wood console table is one of the pieces we have created that rescues the reclaimed chamcha wood from being one of Nature's finest castaways by making it into an elemental design statement. Because this piece is crafted from natural solid wood, color and woodgrain character may vary, adding a unique personality to each piece.
