every piece a conversation

Mango wood is a hardwood that has been harvested for furniture use for many years. The heartwood comes in a variety of colors, ranging from light to dark brown, with some pieces even having a hint of pink.

Mango wood is inherently sustainable. The tree produces its highest yield of fruit between ages 8-10 and after that farmers often remove the trees to replace them with new ones.

Elegantly carved with a trumpet leg on a sturdy base, with a stainless steel foot rest to complete the look.
