

## ORIGINS FREEFORM DESK

Assorted

The top of the Origins Freeform Desk was culled from massive trees felled by natural causes. We have rescued the reclaimed chamcha wood piece from being one of Nature's finest castaways by making it into an elemental design statement. This live-edge desk is made from a block of acacia wood that has been sawn from a tree trunk with its edges intact so it maintains its organic form. We have assorted tops available to be placed atop the clean-lined metal legs so that the perfect specimen for any given interior can be chosen. The wood desk is one of an array of furnishings and accessories by Phillips Collection that reflects the ethos we create and curate: modern organic.
